# Marco Jet Single and Twin

---

## Bulk Brew Coffee Machine

The Marco Jet is an industry leading coffee grinder and brewer, ideal for hotels, busy cafés, restaurants and canteen environments. The Jet is the only machine in the market to produce SCAE Gold Cup quality coffee, ensuring that your customers receive the quality they deserve.

It is 95% recyclable with a small counter footprint and low energy consumption. The unit can do coffee batches between 2 and 6 litres (per urn).

# Marco Jet Single and Twin

---

## BENEFITS

- Serves SCAE Gold Cup quality coffee
- User friendly touch screen interface with pictorial instructions on brewing process
- Easy to clean and maintain
- Has the ability to use both beans and pre-ground coffee
- 95% recyclable materials
- Precision water volume and temperature
- Monitors brew time precisely, and tracks time since initial brew on the screen; so you know exactly how long it has been since you last brewed coffee
